LATE FOREIGN NEWS.

The Adelante, Capt. Godfrey, arrived yesterday from San Francisco, 12 days and 2 hours passage. Capt. Godfrey is an old acquaintance, having commanded the steamer also, on her voyages to this port. We are indebted to Paster Sublets for his list of papers to the Adelante. We notice the arrival of C. L. Stevens, Esq., and wife.

The mails are on board the Queen, which left on the 2d inst., and is therefore 25 days out. The winds have been light, and all the vessels that left in the latter part of August and long passages up the Narrows, 20 days; the Corvo E. Sulf, 21 days; and the schooner Alaska, bound for Portland, 22 days out, had not reported herself.

The most important news is the revolution in Spain, which had progressed so far that Queen Isabella had fled from the country, and the Revolutionaries are in possession of the government. This revolution is the result of a union of the Constitutional, Moderate and Liberal parties in an effort to overthrow the reigning dynasty. The fleet has joined the movement because the sailors are unpaid, and the greater part of the army have revolted because they are ill-treated at the hands of their chiefs Generals. The Church, which is bound by every tie to the Queen, resists, and holds the masses in check.

Congress sat on the 2d of September, and adjourned, without doing any business, to the 6th of October, and authorized their remaining officers, unless otherwise ordered, at that time, to further adjust their respective Houses to the first Monday in December, when bills upon the 2d. It is quite certain that there will be no working session until the latter named date.

In England, the Preliminary candidates are defining their views and positions in the pending census. There is no important news.
